

Uisenis Wind Farm

Invitation to Public Exhibitions
20 - 23 March 2023

Uisenis Power Limited is progressing plans to bring forward the proposed Uisenis Wind Farm on the Eisgein (Eishken) Estate.

We were grateful to the local community who gave us their feedback on the proposals in November 2022. The plans for Uisenis Wind Farm (a redesign of the consented Muaitheabhal Wind Farm) have developed further, and we would like to invite you to provide your feedback before we submit a planning application.

Uisenis Power Limited is redesigning the previously consented Muaitheabhal Wind Farm scheme with a smaller number of larger turbines.

Our Commitment to Local Communities

Eurowind Energy believes that renewable energy is never alternative but the obvious choice for our future.

As part of our commitment to ensuring everyone benefits from a cleaner, greener future, Eurowind Energy is dedicated to engaging with local communities and finding ways to ensure positive tangible benefits beyond just energy generation.

Eurowind Energy is interested in investing in local communities and procuring local services. We would like to hear your views on how Uisenis Wind Farm and Eurowind Energy can support local communities, so please join us at one of our exhibitions.

Public Drop-In Events

We will be holding four community drop in-events where members of the project team will provide further information about the project and answer your questions:

Monday 20 March 2023 4pm - 7.30pm
Kinloch Historical Society, Community Hub, Balallan HS2 9PN

Tuesday 21 March 2023 4pm - 7.30pm
Ravenspoint Centre, Kershader, South Lochs HS2 9QA

Wednesday 22 March 2023
4pm - 7.30pm
North Lochs Community Association, Leurbost HS2 9NU

Thursday 23 March 2023 4pm - 7.30pm
Stornoway Town Hall, 20 South Beach, Stornoway HS1 2BJ

Unable to Attend the Public Exhibitions?

Respond Online

Visit: <https://eurowindenergy.com/uk/our-projects/uisenis-wind-farm> to view the plans, download a feedback form and return this to us by email.

Respond By Post

Return a feedback form to us at **Eurowind Energy, 39 St Vincent Place, 1st Floor, Glasgow, G1 2ER**

Respond By email

Please email uisenis@eurowindenergy.com

Please ensure your response reaches us by
Friday 14 April 2023.

Project Summary

Number of
Turbines: up
to **25 wind
turbines**
proposed

Turbine Tip
Height: up to
205 metres

Installed
Capacity:
approximately
189 MW

Energy
Generation:
Equivalent of
approximately
**105,000 homes
per year***

Lifespan
of Wind
Farm: up to
40 years

Public Drop-In Events

We will be holding four community drop in-events where members of the project team will provide further information about the project and answer your questions:

Monday 20 March 2023

4pm - 7.30pm

Kinloch Historical Society, Community Hub, Balallan HS2 9PN

Tuesday 21 March 2023

4pm - 7.30pm

Ravenspoint Centre, Kershader, South Lochs HS2 9QA

Wednesday 22 March

2023

4pm - 7.30pm

North Lochs Community Association, Leurbost HS2 9NU

Thursday 23 March 2023

4pm - 7.30pm

Stornoway Town Hall, 20 South Beach, Stornoway HS1 2B)

* Based on DECC and Digest of UK Energy Statistics (DUKES) figures, which assume average UK household electrical consumption of 3,910 KWh and UK average onshore load factor of 27%, using 25 turbines with an overall capacity of 189 MW.
