

Renewable energy is never alternative

Eurowind Energy is a leading developer and operator of wind, solar and hybrid projects. With more than 500 employees across the US and 15 European countries, the goal is to create a future fueled on nothing but renewable energy by making investments in renewable energy projects.

We develop projects within

Wind turbines

PtX

Solar panels

Heating pumps

Battery

Biogas

Eurowind Energy's revenue reached the highest levels in history in 2022 through sale of electricity and asset management, which accounted for 88% of the total sales. This is in line with our strategy to increase our reoccurring revenue.

About Eurowind Energy

Every day, we work innovatively with the green transition focusing on new technologies, progress and growth. Together with our specialists, we are concentrating on wind, solar, storage and PtX projects. We focus on tangible solutions to link consumers and suppliers to understand the great possibilities and barriers connecting the production of hydrogen and storage.

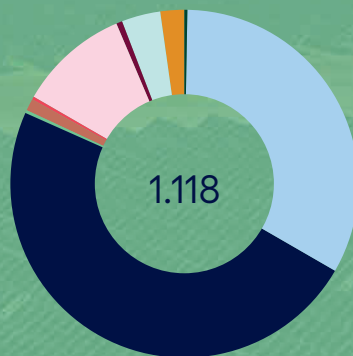

Business highlights globally

Eurowind Energy's revenue for 2022-23 was 232 mEUR and our equity, including minority interests and Hybrid capital, amounted to 688 mUSD. We are constructing 21 projects in nine countries simultaneously and working on multiple projects within wind, solar and hybrid reaching 657 MW.
